

Special Offer for BEEniagara MEMBERS ONLY - Save 50%*

*This offer is exclusive to members and is not transferable, participating companies must be members in good standing at the time of engagement.

If your company is only interested in using the best practices for online marketing (through your website), you want this road map for increasing your online capital, social collateral and search engine results.

If you think you could do better with powerful Internet tools that are available to anyone, you want to take advantage of this Special Offer for BEEniagara MEMBERS ONLY.

There is no better way to begin than with an appraisal and review of your business' online properties.

Here is what we offer.

We start by using powerful Internet tools to look deep inside the your business' website to find out which valuable attributes are working for you, which are failing and which ones need attention.

We look at your visitors, your local and social visibility; your search engine optimization; the usability of your site; use of the technology; design and functionality; and mobile and tablet adaptability.

We analyse and interpret the data for you and then you receive a 24+ page report covering up to 70 different topics, written in easy to read language that you can immediately put to use.

That's not all.

We deliver your report personally, during a 2-hour expert consultation, where we go over the information, explain what your priorities should be, and answer any questions you may have.

You will be able to take the report directly to your Webmaster or staff for immediate implementation.

Publicita can advise on expected budgets, strategies and tactics that you will need to ensure your online efforts are rewarded with more visibility, better organic search results and top grade engagement for your prospects.

The regular fee for the service is \$299.00.

Order your report and book your consultation directly with us, using the contact information below and get a 50% discount from PUBLICITA for being a member of the BEEniagara Networking Group.
